Presenting Princess Prunella. Proud, prissy, and pretty, and unhappily very spoiled, she lives in a pink palace with her pinheaded parents, her three plump pussycats, and her prize puppy dog, Pug. Her passion? Her very own person. Her aspiration? To marry a pinheaded prince with piles of pin money, who will praise and pamper her. From Margaret Atwood--the novelist, poet, short story writer and author of such contemporary bestsellers as *The Handmaid's Tale* and *The Robber Bride*--comes a modern fairy tale with a classic message. Illustrated with elegant humor by Maryann Kovalski, *Princess Prunella and the Purple Peanut* revels in the smart-alecky humor of its impertinent heroine and an alliteration of p's that gives the story a tongue-twisting energy with surprises at every turn. Children, and adults who love reading to children, will love reading princess prunella in the same way that they love reading Dr. Seuss for the sheer fun of the language. But there's something more, too, as a born storyteller

creates, with the mere choice of a word, an indelibly lively portrait of a spoiled little girl who is about to get her much-deserved comeuppance. Selection of Book-of-the-Month Club.

53,000 copies in print.
