Even when faced with the extreme situations in life there is hope for those who will step out and say "I believe!" From tragedy to triumph; finding hope and peace in the darkest hours is what you will find on every single page! A failing business, a doctor's grim prognosis, a drunken driver's deadly mistake; just how much more did the Lord expect the Rose family to bear? Despite their resolve to trust God, they had many questions. Some of them included: How long would Tom survive with a terminally-damaged heart? Could they ever forgive the man whose reckless driving took two children from them? How would they ever overcome their crushing grief and financial devastation? Even if you aren't dealing with personal crisis or tragedy, this book will minister to you! Tom and Marilyn Rose know what it's like to walk through the valley of decision. Their story will touch you by showing you the way to find hope and healing in the midst of any situation. This story will give you new insight into the love and faithfulness of God and will build faith to trust Him, when you enter into the valley of decision!
