About Love. About Time. About Death.

From the Harvey Award and Ignatz Award nominated author of Sweet

Bright Elegy is a Xeric Foundation Grant-winning love story in which time and memory and reality twist to form the life of the main character, James Sharpe. Bright Elegy is a story of mystery, violence and love, the story of one man's conflicted journey--a man trying to flee his past while at the same time sinking into childhood memories for succor and comfort.
