16 projects show how to make creative 3D box frames in a variety of styles fit for displaying just about anything in your home!

Display mementos, photographs, favorite collections or crafts for all to admire and enjoy! Readers will learn how to make the frames from scratch using four methods and create a variety of styles through 16 step-by-step illustrated projects.

Frame variations, extra ideas and helpful hints give crafters the inspiration to make their own unique frame perfect for housing everything from a dolls' house and mounted needlework to wedding memorabilia and dried flowers. Stylish contemporary photography is also included to give an idea on how the frames can be finished and displayed.
