Unrivaled diversity and teachability have made The Heath Anthology a best-selling text since the publication of its first edition in 1989. In presenting a more inclusive canon of American literature, The Heath Anthology continues to balance the traditional, leading names in American literature with lesser-known writers and to build upon the anthology's other strengths: its apparatus and its ancillaries. Available in five volumes for greater flexibility, the Fifth Edition offers thematic clusters to stimulate classroom discussions and to show the treatment of important topics across the genres. The indispensable web site includes revised timelines, a multimedia gallery to support thematic clusters, and a searchable Instructor's Guide.
