The American Pageant continues to enjoy a reputation as one of the most popular and effective textbooks in the field of American history. The text's colorful anecdotes, first-person quotations, and trademark wit bring American history to life. Revisions have been guided by the inclusion of the histories of previously overlooked individuals or groups, as well as the belief that the main drama of American history resides in the public arena, where these and other peoples have both cooperated and contended with one another.

The Thirteenth Edition places greater emphasis on the global context for American history and provides expanded coverage of cultural innovation and intellectual ideas. Additionally, the new edition retains the pedagogical features that make The American Pageant accessible for students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present primary sources, scholarly debates, and key historical figures for analysis.

- More attention has been given to the experiences and contributions of women, law, and the national economy in the antebellum period; the rise of colleges and universities; American involvement in Asia; and specific events such as the Seven Year's War, the election of 1800, the Compromise of 1850, the Spanish-American War, and the Cold War.
- The authors have added more "Examining the Evidence" features, which present photographs, artifacts, or brief documents, and demonstrate how historians analyze such evidence.
- "Makers of America" essays focus on the diverse ethnic, racial, and activist groups that compose America's pluralistic society.

Blackboard/WebCT course cartridges offer text-specific content to help instructors save time creating assignments and exams. Customizable online homework features essay and multiple-choice questions based on chapter concepts.
