装帧:Paperback

isbn:9780425139523

The bestselling author of Practical Magic offers "an affecting love story, laced with humor" (Booklist) that tells the tale of a man and a woman, an activist and a therapist, so consumed with helping others that they are in danger of failing in their duty to themselves. This is an unforgettable tale about the true meaning of commitment, from "one of our quirkiest and most interesting novelists." (Jane Smiley, USA Today)
