This book shows you how to install, use, manage, and extend a wiki using MediaWiki the wiki engine used to power Wikipedia. You'll learn wiki terminology, how to create user accounts and new pages, and find your way around the wiki. Special focus is placed on how wikis are used in software and web development projects and how

their capabilities ideally suit a specific environment and audience. You' ll quickly come to discover why wikis are a valuable addition for any organization that wants to increase productivity using web-based collaboration tools.
