著者:Howard M. Shapiro

出版者:Wiley-Liss

出版时间:2003-03-14

装帧:Hardcover

isbn:9780471411253

From the reviews of the 3rd Edition

"The standard reference for anyone interested in understanding flow cytometry technology."

-American Journal of Clinical Oncology

"one of the most valuable of its genre and addressed to a wide audience written in such an attractive way, being both informative and stimulating."

-Trends in Cell Biology

This reference explains the science and discusses the vast biomedical applications of quantitative analytical cytology using laser-activated detection and cell sorting. Now in its fourth edition, this text has been expanded to provide full coverage of the broad spectrum of applications in molecular biology and biotechnology today. New to this edition are chapters on automated analysis of array technologies, compensation, high-speed sorting, reporter molecules, and multiplex and apoptosis assays, along with fully updated and revised references and a list of suppliers.

评论

非常全面和详细，你几乎可以找到关于流式细胞仪的一切东西，同时给出了惊人数量的参考文献供进一步参考。可惜本书第4版删掉了如何自己制作流式细胞仪这一最有趣的部分，因此推荐第3版。

关于流式细胞介绍得非常详尽
