

Lasers and Electro-optics

[Lasers and Electro-optics_ 下载链接1](#)

著者:Christopher C. Davis

出版者:Cambridge University Press

出版时间:1996-05-31

装帧:Hardcover

isbn:9780521308311

This comprehensive book provides a detailed introduction to the basic physics and engineering aspects of lasers, as well as to the design and operational principles of a wide range of optical systems and electro-optic devices. Throughout, the author gives

full details of important derivations and results, as well as many practical examples of the design, construction, and performance characteristics of different types of lasers and electro-optic devices. Covering a broad range of topics in modern optical physics and engineering, this book will be invaluable to those taking undergraduate courses in laser physics, optoelectronics, photonics, and optical engineering. It will also act as a useful reference for graduate students and researchers in these fields.
