Each generation of therapists can boast of only a few writers like Deborah Luepnitz, whose sympathy and wit shine through a fine, luminous prose. In Schopenhauer's Porcupines she recounts five true stories from her practice, stories of patients who range from the super-rich to the homeless and who grapple with panic attacks, psychosomatic illness, marital despair, and sexual recklessness. Intimate, original, and triumphantly funny, Schopenhauer's Porcupines goes further than any other book in unveiling the secrets of "how talking helps."

“即使在深切的爱里，我们也还是孤独”。出戏太多扣一星。

Hmm, I was thinking so how does a psychiatrist balance oneself when he/she is involved in so various and subtle intimate relationships. It seems they have certain personal commitment to their clients even though the therapy is paid. Probably I'll read more over the semester..

Wer jedoch viel eigene, innere Wärme hat bleibt lieber aus der Gesellschaft weg, um keine Beschwerde zu geben, noch zu empfangen.
