装帧:Paperback

isbn:9780312263959

More than a sequel, *Slightly Chipped: Footnotes in Booklore* is a companion piece for *Used and Rare*. A delight for the general reader and book collector alike, it details the Goldstones' further explorations into the curious world of book collecting. In *Slightly Chipped*, they get hooked on the correspondence and couplings of Bloomsbury; they track down Bram Stoker's earliest notes for *Dracula*; and they are introduced to hyper-moderns. *Slightly Chipped* is filled with all of the anecdotes and esoterica about the world of book collecting that charmed readers of *Used and Rare*.
