The Asia Book is a truly comprehensive exploration of this captivating continent of contrasts, from the tropical beaches of Bali to the frozen slopes of Everest. Hugely ambitious and stunningly beautiful, it covers Southeast Asia, Northeast Asia, the Indian Subcontinent and the Himalayas, Central Asia and the Middle East. In the style of the bestsellers The Travel Book and The Cities Book, The Asia Book combines arresting photography with sharp, cogent profiles of every country. Key regions and emerging issues are given in-depth coverage. Both a solid regional reference book and a deluxe expression of exoticism to browse through leisurely, The Asia Book stimulates the senses as it takes the reader on a journey of imagination and possibility.
