The eagerly awaited third novel from the publicity conscious gay porn star and poet, Aiden Shaw. A new novel guaranteed to attract attention. </P>

Primarily located in the hedonistic London clubs so vividly characterised in Shaw's Brutal and reintroducing David, Joe, Ryan and the disturbed Flora, from Boundaries, this is a far more rounded and intense piece of work. Here he has created a vast panoramic view of a world of which some may disapprove, but by which most are fascinated.
