"It is a truth universally acknowledged, that a single man in possession of a good fortune must be in want of a wife." --Jane Austen, *Pride and Prejudice* There was never a more astute chronicler of the hits and near-misses of love than Jane Austen. Now, she helps readers discover their inner heroines and get the guy in this witty book of romance and dating strategies. Utilizing wisdom inspired by Jane Austen's novels, from *Sense and Sensibility* to *Pride and Prejudice* and beyond, author Lauren Henderson creates an indispensable guide for navigating the all-too-mystifying dating scene. Harnessing the triumphs and pitfalls of Austen's classic characters, Henderson shows how qualities like honesty, self-awareness, and forthrightness always win the right man -- and still let you respect yourself in the morning. A completely new and amusing approach to dating, *Jane Austen's Guide to Dating* includes insightful personality quizzes that reveal which Jane Austen character you -- and your mate -- most resemble. Armed with this knowledge, you can learn what to do if you're a Lizzie, but the object of your affection is a Bingley. You can even find out how to gain the clearheadedness and confidence that Anne Elliot had and almost lost in *Persuasion*. Full of wit and truly useful advice that has stood the test of time, *Jane Austen's Guide to Dating* will help readers overcome the nonsense and find the sense (and sensibility) to succeed in a lasting relationship. Fans of Jane Austen and newcomers alike will delight in this fun, fresh, and audacious guide.
