出版时间:2002-09

装帧:Hardcover

isbn:9780875861555

Did America's proud history of civil liberties come tumbling down on September 11? In this searing analysis of the US Patriot Act the author seeks to start a different, parallel dialog about the "war on terrorism," to prevent it becoming a war on ourselves and a war on the Constitution. A wake-up call for Americans concerned with preserving our nation's values.
