出版时间:march 2008

装帧:22,5 x 22,5 cm Hardcover

isbn:9783866540217

This new series focuses on brand new trends in architecture and interior design. This book deals especially with exterior design in open and public spaces. In this field of design there are no bounds between art and architecture - functionality and design become one to form bridges or to illuminate a garden....It is a great challenge for every architect to embed his architecture in a natural surrounding without destroying it. The book presents projects of landscape architecture from all over the world. The content is in alphabetical order of the architects and an index with contact information of the respective architects and designers is enclosed.
