装帧:Hardcover

isbn:9783930612802

This authoritative book is the culmination of the author's enterprising field expeditions in southern and eastern Africa undertaken between 1993 and 1999 and his many years of dedicated research and knowledge on the frogs and toads of Africa.

The main part of the book is dedicated to the species recorded, providing very detailed accounts including information on identification (including descriptions of adults and larvae), voice, breeding & development, behaviour, biogeography and distribution. Includes 10 new species descriptions.
