著者:Bart A. DePetrillo

出版者:Que

出版时间:2001-12-21

装帧:Paperback

isbn:9780789725950

<HTML>Think Microsoft .NET will provide the "big .NET picture" to help both developers and IT decision-makers decide whether they should explore .NET further. It is not a how-to book and isn't code-laden. The reader will take away a deep understanding of what .NET is and an understanding of the .NET Framework. This

knowledge will provide an orientation and give them enough information to make a sound decision on whether or not they want to use .NET in their IT department or development future.

Bart A. DePetrillo is the co-founder of Newtelligence AG, a German company specializing in application development, consulting, and training for .NET technologies. He is also the author of technical educational materials for Microsoft and the ".NET Initiative."

His company has presented at the Microsoft .NET Technical Summit, Systems 2000 Conference, SIGS/101 Component Development 2000, and Microsoft TechEd 2000.</HTML>
