Obsessive Compulsive Disorder (OCD) can tear apart a family. Often family and friends have tried to "stop" a loved one's OCD--with little success. This is the first book specifically for the family and friends of someone with OCD. ""In this quick and easy fast tract era, it's not so easy to reflect back to the basics of family life. Families especially are led to believe if something's wrong, somehow it's their fault. This loving book is an inspiration and will be considered way ahead of it's time in years to come.""
