## 评论

It is obvious that the author has made the effort to maintain a neutral position towards China, and his own knowledge and experience in the field of aviation definitely add values to the book. Fallows' discussion triggered both fascination and devastation in me towards my own country in a field that I had no prior interest or knowledge in.

-----  
the book uses the country's air industry as a metaphor for what is going on inside China itself.

-----  
弱水三千，写中国的非虚拟作品那么多，作者只选取了航天这一项写，轶事看看就好，观点很有道理，但是和其它关于中国的书相比就比较平庸了
