MY OWN COUNTRY

A Doctor's Story

ABRAHAM VERGHESE

"Remarkable...
An account of the plague
years in America, heart-
tuggingly written, fascinating
and tragic, by a doctor
who was changed and
shaped by his patients."

Nestled in the Smoky Mountains of eastern Tennessee, the town of Johnson City saw its first AIDS patient in August 1985. Working in Johnson City was Abraham Verghese, a young Indian doctor specializing in infectious diseases who became, by necessity, the local AIDS expert. Out of his experience comes a startling, ultimately uplifting portrait of the American heartland.
