"Stampede not through life, lest you miss the majesty of the world around you."  
"Sometimes the grass is exactly the same colour green on the other side of the fence."  
"Turning the other cheek often puts your best hoof forward." Seemingly serene and all-knowing, cows are extremely popular. They can also teach us humans a thing or two! This is a whimsical compilation of amusing, unusual photographs of cows along with words of wisdom from our bovine friends.
