For over twenty years, the inspired silliness of Janet Stoeke's Minerva Louise series has captured imaginations and tickled funny bones. Now the book that introduced the feather-brained fowl is back and just as hilarious as ever. From the flowerpot Minerva uses as a comfy seat to the tricycle she mistakes for a tractor, the daffy details of this clever story are truly memorable. An all-new cover design makes this the perfect introduction for the next generation of Minerva fans.
