An ancient skeleton is discovered in Israel - will it shed new light on the life of Jesus or plunge the world into darkness and chaos? Dr. Jonathan Weber, Harvard professor and biblical scholar, is looking forward to his sabbatical year on an archaeological dig in Israel. But a spectacular find that seems to be an archaeologist's dream-come-true becomes a nightmare that could be the death rattle of Christianity. Carefully researched and compellingly written, "A Skeleton in God's Closet" explores the tension between doubt and faith, science and religion, and one man's determination to find the truth--no matter what the cost.
