What do an old wooden box, a jeweled pendant and some mysterious, green-garbed strangers share in common? When Rolin son of Gannon sets out to solve this riddle, his adventures take him worlds beyond the walls of his little log cabin. With the help of some grumpy griffins and a long-lost prophecy, Rolin and his friends battle a sorcerer and his underworld army; deadly snake-trees; dragons and other mythical creatures. On their perilous quest for the fabled Isle of Luralin, they must trust the King with their very lives. In the end, they learn that "The greatest help oft comes in harm's disguise to those with trusting hearts and open eyes." The King of the Trees will enchant readers of all ages, especially those who love trees and the Tree-Maker.
