isbn:9780472030651

This book contains reproducible activities for extra reading skills practice. It presents activities that test students' strategies for reading, such as cloze exercises and sentence completion practice that focus on using world knowledge and discourse

cues to make the right word choice and mystery passages that emphasize inferencing skills. Ten reading comprehension quizzes serve as stand-alone readings that are excellent practice for the Next-Generation TOEFL(R) and other proficiency tests. Although initially designed as a companion for "Reading Processes and Structures, " it can be used with any reading skills textbook or in any course where reading skills and strategies require further development.
