Widely acknowledged as one of our most insightful commentators on the history of journalism in the United States, David Paul Nord reveals how newspapers have intersected with religion, politics, reform, and urban life over nearly three centuries in a lively and wide-ranging discussion that shows journalism to be a vital component of community. In settings ranging from the religion-infused towns of colonial America to the rapidly expanding urban metropolises of the late nineteenth century, Nord explores the cultural work of the press and how ordinary readers use journalism to form community attachments and engage in civic life.
