著者:Schoen, Steven

出版者:Prentice Hall

出版时间:1999-12

装帧:Pap

isbn:9780130257710

For undergraduate courses in introductory creative writing. This current text treats creative writing as a practical skill-building course with actual applications. It presents comprehensive coverage of the elements of fiction and real-world writing techniques--such as sensory detailing, character construction, and cause and effect plotting--that students can put to immediate use.
