isbn:9781582974132

Revised and updated to address the changing trends in children's literature, this edition of "Children's Writer's Word Book" provides even more of the essential information for children's writers that made the first book a success. With lists of reading-level specific words and a thesaurus of words annotated with reading levels, this invaluable guide saves writers time by collecting everything they need to know about age-appropriate language in one handy book.
