isbn:9781403946409

"Language for Specific Purposes" is a growth area in research and application in both academic and occupational settings. The book contains an overview of key concepts and research findings, grounded and analyzed in case studies from current teaching situations. A series of project reviews illustrate research methods, aiming to stimulate further research, and a guide to research resources is provided. In the process, teaching methods, materials, motivation, communicative language skills and subject specific requirements are discussed.
