This book contains over sixty papers on the many aspects of Electronic Publishing that have been written specifically for the 9th ELPUB conference hosted by the Research Group on Document Architectures. They have been overseen by the International

Programme Committee consisting of 34 highly qualified experts with a wide variety of backgrounds and expertise domains. The major general topics covered are: Libraries and Scholarly Communication, Scholarly Publishing, Open Access, Humanities in Electronic Publishing Context and Electronic Publishing in a more general societal and economic context. In the technical field, specialised contributions can be found in: Innovative Approaches, Mark-up Languages, Multilingual Issues, E-publishing for Reading Impaired Users and Web Content Management.
