出版时间: 2006-1-11

装帧: Paperback

isbn: 9780582505759

How do we learn to speak and understand speech? Is language unique to humans? Psycholinguistics is the study of language as it relates to the mind and brain. The first edition of An Introduction to Psycholinguistics has established itself as a popular text for this fascinating area of linguistic study. This new edition provides students with an up-to-date, focused and accessible introduction to the key issues and the latest research information.

## 评论

我爱心理语言学(继只睡了三个小时后背完了这一门，我…我还是爱它的。

只要对二语习得等话题感兴趣，这本作为导论还是比较有趣，但不够有(中国教材式的)逻辑。不过学到现在才明白，教材里只是一种立场而已，哪有什么黑白分明。
