The twelfth edition of Readings for Writers provides comprehensive coverage of many rhetorical skills and strategies. It contains more than 110 readings, including essays, poems, short stories, excerpts from books, biographies, speeches, paragraphs, and e-mails. Its contributors range from Shakespeare to struggling students to ordinary people with something interesting to say, and boys its scope of coverage encompasses a breathtaking variety of topics, from how boys in Gilbert Island kill octopuses with

their teeth to a description of the thing for everyone of every taste and every bent.
