装帧:Mass Market Paperback

isbn:9780446363501

No more groaning over Greek, laboring over Latin, or memorizing long lists to build word power. This technique connects words with life, so that common concepts--seeing, touching, and hearing--enable the student to unlock the meanings of hundreds of words--to double or triple word power in 30 to 60 days. Method-tested and used successfully in the classroom for years.
