Nahuatl, also known as Aztec or Mexican is the most widely spoken indigenous language in Mexico and Central America. Spoken by the Aztecs centuries ago, 1.5 million people in Mexico and Central America continue to speak it today. This bilingual dictionary reflects usage largely based on classical norms of the Nahuatl literary tradition, but also includes more contemporary vocabulary. Entries contain the part of speech and the preterit stems. An extensive grammar section and a guide to Nahuatl pronunciation complete this work, which is sure to be of interest to scholars, students and travellers alike.

目前能找到的唯一涵盖古典纳瓦特尔语和现代纳瓦特尔语的便携版小词典，但是全书基本就是词表对照，无例句，好赖还有动词的过去式提醒
