This is an astonishing book. Bezanson approaches conventional cases in unconventional ways. Upon finishing it, one feels privileged to have participated in that rare seminar where the master professor leaves no position unchallenged." - Steven Helle, contributor to Last Rights: Revisiting Four Theories of the Press and numerous law journals, and Freedom Forum National Journalism Teacher of the Year. "Bezanson is one the country's leading First Amendment scholars. In this highly entertaining and well-researched book, he takes us into the gray area where freedom of speech and press collide with other rights and responsibilities. This is a must read for all journalists and for anyone concerned with limits on freedom of speech." -- John Soloski, Dean,

Grady College of Journalism and Mass Communication, University of Georgia "Too often the press cries "First Amendment" as if it gave an absolute answer--as if freedom of the press trumped all other values. Randall Bezanson has found an ingenious and fascinating way to cut through the absolutes, putting provocative questions about leading press cases that make us see that privacy, fairness, and other interests have their claim, too. Reporters, editors, and their lawyers should read this book and reflect on it.
