Obsessed sudoku fans need not worry about their solving addiction - because the pages in "Super Sudoku on the Flip Side" are perforated so they can be pulled out and taken anywhere, whenever the urge hits. It features nearly 160 puzzles to choose from, all 9X9 and of medium difficulty. But newcomers who want to plunge in will find all the tips, hints and instructions they need in the beginning - including advice on eliminating squares using hidden pairs in rows and columns. Of course, all the solutions are also right there on the back of the page, so you can check (or cheat!) when needed.
