Sudoku is fun, mind-boggling, and relaxing - all at once. As soon as you finish your first sudoku puzzle, you'll be raring to start another! Solving a sudoku puzzle demands no mathematical skills. All you need is a pencil and a love of game-playing. There's just one basic rule: Fill in the empty boxes in the nine-by-nine grid so that every row, column, and three-by-three square contains the numbers 1 through 9, without repeating. Simple enough, right? You'll be a pro in no time with this collection of 150 sudoku puzzles, presented by Puzzlemaster Will Shortz. If you - like millions of other Britons - are already hooked on the game, "Will Shortz Presents I Love Sudoku" is sure to provide further hours of challenging fun. There are 100 easy-to-hard puzzles, perfect for any solver, along with an introduction from the puzzlemaster, Will Shortz.
