The response to Uncle John's Bathroom Reader Puzzle Book #1 was so overwhelming it demanded an encore performance. So premier puzzle maker Stephanie Spadaccini - a 30-year veteran in the field - went back to the Bathroom Reader archives to seek out

more tantalizing trivia to craft into more fun puzzles. As Hollywood knows, sequels are challenging, but Spadaccini has managed a second act that is, if anything, better than the first. Here again are the most popular types of puzzles - word searches, crosswords, criss-crosses, anagrams, crypto quizzes, double-crostics, and brainteasers - along with crypto lists, trivia quizzes, palindromes, and more, all ranked by difficulty. This book is sure to satisfy those who want to sharpen their pencils and begin a session of mental aerobics.
