Word lovers can take the challenge any time they want, with this clever, solitary version of the popular game. It works much like a lottery ticket. Each page features one puzzle, and each puzzle has the 26 letters of the alphabet accompanied by silver circles to

scratch off. Choose a letter, give it a rub, and see if it's in the puzzle, and where. Remember that these words - including Xerox copy, lazybones, and jonquil - are more likely than not to include the letters you'd generally choose last, like "z" and "q." And watch out, because six misses and you're hanged!
