From the Creator of the Forgotten Realms

There was a time when Castlemorn surged and crackled with magic. Life was good. But

it came to a violent and deadly end. Unknown fell beings struck swiftly, making arcane war on Castlemorn. Wizards and common folk alike died in scores of thousands. It seemed as the world would be consumed...until the land itself rose and cried, "Enough!"

Today, Mournans dwell amid the ruined shards of their former greatness, calling the land Castlemourn, not remembering the time before the Fall. However, the land itself is restless, longlurking mysteries are stirring. Those brave enough wonder: Will the Dark Ones return, bringing war? Who can now withstand them, if they do? What dangers lurk in ruins all across Mournra?

Castlemourn needs heroes now more than ever. Mysteries abound across the lands, from the nearest pasture and woodlot to grim ruins avoided by sane folk. The Castlemourn Campaign Setting is the main sourcebook for this fantasy world rich in storytelling and adventure, offering a web of mystery and wonder to meet the tastes of any fantasy roleplayer, from those who slash their way to glory, those who revel in solving complicated puzzles, and those who wish to interact with a myriad of strange and interesting characters.
