A Storytelling Game of Stolen Lives

Prometheans are soulless corpses animated by a mysterious, alchemical force -- the Divine Fire stolen from the gods. Their hideousness forces humans, animals, and even nature itself to reject them on an instinctual level. They wander the dark places of the world, seeking what their creators denied them: humanity.

New Game set in the World of Darkness

*A whole new type of character for players, inspired by the classic Frankenstein monster and the worldwide myths of Golems

*Explores aspects of the World of Darkness unknown to the other game lines

*Strange new antagonists and mysteries to unravel for players of any World of

Darkness game
