Following the enormous international success of his "The Most Beautiful Gardens in the World", Alain Le Toquin has continued to travel and document gardens all over the world. For "Gardens in Time", he has visited 20 different countries and photographed nearly 130 gardens both contemporary and historical, from the Roman gardens at Hadrian's villa to the modern work of landscape gardeners like Fernando Caruncho, the Wirtzes, and Robert Irwin. Jacques Bosser's informative text reveals the evolutions, transformations, influences and trends that characterise each era, putting into context the aesthetic appeals of the gardens both then and now. Among garden history

projects undertaken by a single photographer, "Gardens in Time" is totally unrivaled in scope.
