isbn:9781580112543

Make a Californian home landscape more attractive and functional with "California Home Landscaping." Like the other titles in this series, this book contains three parts: Design Portfolio, Guide to Installations, and Plant Portraits. In the "Design Portfolio" section, readers will find 48 designs created by landscape professionals in California. "Guide to Installations" explains how to install the plants, paths, patios, and arbors used in the designs. More than 200 of the best plants for the region are fully described in "Plant Portraits." Clearly written in a friendly style and with 470 color photographs

and paintings, California Home Landscaping provides everything readers need to know to landscape like a pro.
