Bare, stark swimming pools - those rectangular concrete holes in the ground surrounded by a chain link fence - are going the way of the dinosaurs. Pool owners have begun to see the pool and the area around it as an outdoor living space, a place for entertaining a crowd or relaxing alone. In response to this hot, new trend, gardener and landscape designer Catriona Tudor Erler has written POOLSCAPING, a one-of-a-kind handbook overflowing with inspiring ideas and practical advice on how

to make your swimming pool the lovely, welcoming centrepiece of your property
Illustrated with beautiful full-colour photographs of outstanding poolsapes, this
unique guide demonstrates how any pool owner can transform the pool area into the
showpiece of the neighbourhood
