A comprehensive guide to gardening in the Northeast -- includes Connecticut, Illinois, Indiana, Iowa, Maine, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont and Wisconsin. Presenting a new way to think about gardening, the American Horticultural Society's "smart gardening" program teaches gardeners how to their own preferences and time

availability, assess the possibilities of a location, and then create a garden that is in tune with the environment. A coding system, assigned to each plant, uses hardiness and heat zones, sun/shade, water needs, and plant size to help determine the perfect plants for any site.
