Palms that grow in Canada? Bananas that overwinter in Michigan? How about southern crape myrtles that flower in Birmingham, England, instead of Birmingham, Alabama? Although the voice of authority - and nursery labels - might say, 'You can't grow those plants here', author Dave Francko has a different message for gardeners: 'plants can't read the information on their tags'. Laced with humorous anecdotes and based on years of first-hand observations and research, this book provides real-world information to help adventurous gardeners grow plants they never before dreamed possible. Nobody who reads this book will ever look at a plant label the same way again.
