A classic in the literature of the garden, *Green Thoughts* is a beautifully written and highly original collection of seventy-two essays, alphabetically arranged, on topics ranging from “Annuals” and “Artichokes” to “Weeds” and “Wildflowers.” An amateur gardener for over thirty years, Eleanor Perényi draws upon her wide-ranging knowledge of gardening lore to create a delightful, witty blend of how-to advice, informed opinion, historical insight, and philosophical musing. There are entries in praise of earthworms and in protest of rock gardens, a treatise on the sexual politics of tending plants, and a paean to the salubrious effect of gardening (see “Longevity”). Twenty years after its initial publication, *Green Thoughts* remains as much a joy to read as ever.

This Modern Library edition is published with a new Introduction by Allen Lacy, former gardening columnist for *The Wall Street Journal* and *The New York Times* and the author of numerous gardening books.
