Inspired by nature, landscape architects and designers transform open spaces, creating functional, artistic gardens and outdoor rooms through a variety of plants, water elements, and hardscapes. Leading Residential Landscape Professionals is an exceptional collection featuring the works of leading landscape professionals and profiling the men and women who create these marvelous outdoor spaces. The designs, from all areas of the country, include formal country gardens, urban sanctuaries, contemplative water scenes, and seasonal settings. This stylish resource includes ideas and garden features that can be adapted to large and small yards, for

those planning to landscape a home or those who are simply passionate about their home and garden.
